

# Weekly Albuquerque Citizen

VOL ME 11

ALBUQUERQUE, NEW MEXICO, SATURDAY OCTOBER 10, 1903.

NUMBER 107

## NEW MEXICO TOWNS

### LAS VEGAS.

Mrs. L. Cochran will go to California to spend several months with her daughter, Mrs. Juliet Vandenberg.

O. K. Benedict is heard from in Oklahoma. He is still in the newspaper business and doing well. He controls five newspapers, three of which he owns.

Mrs. J. J. Cox will be remembered in this city where she formerly lived. She has married a stockman by the name of Oliver and they will make their home in this city. Mrs. Oliver left for the east to get ready to move here.

Wm. White and family, who came west for the benefit of the daughter who died in the city the other day, left for their home in Newport, Ky., on delayed No. 2. The body of the young lady goes with them to Kentucky.

The Crystal Ice company plant has shut down indefinitely. Some ice is on hand and delivery will be made for a day or two yet, but the ammonia has ceased to flow. Superintendent and Manager O. A. Bonnell, who has done faithful and efficient work in connection with the enterprise, will leave for Los Angeles Monday. He has been engaged by a wealthy corporation to erect an electric light and ice plant in a town near the City of Angels.

### SAN MARCIAL.

From the Bee.

Captain M. Cooney, who takes as deep interest in the advancement of Socorro county as any citizen within its borders, was in town yesterday en route to his sheep ranch on the Nogal.

Harry Jaynes has sold his neat little residence to Mrs. R. C. Banks. Consideration \$650. Mr. Jaynes intends to move away from this place, which has been his home for many years.

San Marcial Lodge No. 5 is planning to celebrate the thirty-fifth anniversary of the order in our new opera house, October 27. When our citizens can come out and see the work as founded by the stereotypical views with lecture and talks by able exponents of the advantages of workmanship.

Rev. Ed Le Breton and Mrs. Le Breton departed for Cerrillos, their new home, where the reverend gentleman takes charge of the Methodist church. Upon entering the ministry a few years ago, the Cerrillos charge was Rev. Le Breton's first permanent work in the vineyard of the Lord. During the past three years he has conducted a grocery in San Marcial, but the yearning within him for active church work could no longer be denied, so he is again an authorized agent in the work devoted to the saving of humanity.

### SANTA FE CLUB.

It Will Boost the Ancient Capital City at the Territorial Fair to be Held in Albuquerque Next Week.

"Watch Billy Martin's crack ball nine boost Santa Fe at the fair."

The foregoing is the text of the posters that will be displayed in the business houses of the Capital city, to arouse enthusiasm in the coming baseball tournament during the territorial fair at Albuquerque, in which Manager William E. Martin has vouchsafed to enter a team, that will not only win, but beat every team it crosses bats with, to a faro you well, says the New Mexican.

The business men of the city having responded most liberally, the necessary funds have been raised to take a winning team to Albuquerque, and pay \$100 each to the three professional players, every local team entering the tournament is allowed to have.

A winning team is assured, as Manager Martin has secured Lemke, the Denver team pitcher during the season just closed, and the crack pitcher in the Western league, and Bierwald, the Denver catcher.

Manager Martin is negotiating with a third professional ball tosser who will carry the team to victory in every game, if his services during fair week can be secured. Manager Martin will substitute this man for Bert Jones, the Colorado Springs pitcher, whom he has been unable to locate.

Lemke and Bierwald will arrive in the Capital city this evening, and then practice for the tournament will be inaugurated in earnest on the college grounds.

H. J. Moore, until recently car clerk of the local Santa Fe offices, has accepted the duties of night ticket clerk of the local station.

### SANTA FE.

From the New Mexican.

Miss Anita Armijo of Albuquerque, who has been on a visit to Mr. and Mrs. A. M. Berger, returned home.

Mrs. Edward L. Bartlett has been very seriously ill during the past ten days, but is reported slightly better.

Mrs. Otero and Miss Nina Otero, who have spent the past ten days in Chicago, returned home, after a very enjoyable visit in the dry town.

Mrs. N. B. Laughlin gave a luncheon in honor of Mrs. F. H. McKelroy, who will return to her former home in Indianapolis, and Mrs. Kern, wife of the Swiss consul to Mexico, who is the

at is the consecration of two of the three candidates, thus leaving the Mexican church dependent. Anglican churches are not set up autonomous until three bishops are named. It is further stated that the recognition of the Rev. Mr. Forrester means the shutting out of the English work, growing and important, because of the enormous number of Americans and Canadians who have gone to Mexico, especially to the provincial cities, for business reasons.

Locating a Claim. So many new claims are being located in the surrounding country nowadays that the following points on locating will be found useful:

In locating a mining claim (lode or placer) give to some one corner the title of corner No. 1, and mark it clearly on the stake. Then proceed around the claim from this initial point marking every bend in the line with a stake and giving each stake a number in proper rotation after No. 1. Finally place a stake at the point of discovery, measure the distance from this stake (which is the discovery stake) to corner No. 1, and ascertain as closely as possible with a compass the direction of corner No. 1 from the location stake. If reasonable care is taken in these details, and a description confirming them is made in the location certificate, the latter will be safe and sound.

Insane Hospital.

The repairs and improvements at the insane hospital, Las Vegas, under the direction of Architect Holt & Holt are going on apace. The hard wood floors for the men's and women's dining room have been completed. They are fine, both from the points of utility and appearance. Considerable improvements on the laundry have been made, and the cement sidewalks are being laid. There is much activity on the farm. The crop of hay and vegetables have been bountiful. Especially noteworthy is the large quantity of excellent celery that has been raised this year.

Miss Twomey Married.

The many Las Vegas friends of Miss Margaret Twomey, for four years the capable and highly valued head matron at the territorial insane asylum, will be interested to hear of her marriage to L. L. Mobley, a well-to-do young business man of Los Angeles. When a few weeks ago, Miss Twomey resigned her position, only a few of her intimate friends were informed of the approaching wedding.

OFFICIAL MATTERS.

Irrigation Delegates to the Santa Fe Postoffice.

RAILWAY MAIL SERVICE.

Governor Otero has already received the proofs from the government printing office of his annual report for 1903. This indicates that the report will be out a month or two before the customary time.

Rio Arriba Delegation to the Irrigation Convention.

The chairman of the board of commissioners of Rio Arriba county has appointed the following delegates to the irrigation convention at Albuquerque: L. Bradford Prince, Francisco A. Serna, Jose Nemecio Lucero, Mercedes Sanchez, Venancio Jaramillo, William G. Sargent, Tomas Gonzales, Thomas D. Burns, Perfecto Esquivel and Alexander Read.

Lease of Santa Fe Postoffice.

The postoffice department has accepted the bid of the territorial land board for postoffice premises and has granted a five years' lease. This assures that the site of the postoffice will be in the present quarters in the old palace for the next five years and that an entire new equipment to cost approximately \$3,000 will be installed by January 1, 1904. The annual rental is \$800. This will give Santa Fe one of the best equipped postoffices in the southwest.

Increase of Railway Mail Service.

From yesterday on, railway clerks will make the run between La Junta, Colo., and Albuquerque, not only on trains Nos. 1 and 8. This will give New Mexico an additional local mail between those two points each way daily. There will then be three mails a day to Denver, Pueblo, Colorado Springs and northern Colorado points from Santa Fe and when the Santa Fe Central railway mail service is installed Santa Fe will have six incoming mails and six outgoing railway mails daily. This great improvement of the mail service was brought about by the persistent work of Delegate R. S. Rodey for improved railway mail service for New Mexico.

The mother of Dr. W. G. Tight accompanied him to this city, to spend the winter. The party to which the doctor belonged did not attempt the ascent of Mount Sorata which he pronounced quite feasible, because of delays in reaching the place, the desertion of the Indian packers, and the quarantine of the coast through the prevalence of bubonic plague. He considers, however, the time of the trip well spent.

Quarrel over Forrester.

Discussion that rose to the dignity of hot disputes arose among Episcopal leaders in the United States. Reports after reports have been made. Rev. Mr. Forrester has been charged with unorthodoxy, and it seems hardly credible, say those who know, that the American bishops can be brought to consent to his consecration. The high church people will, it is known, contest the action vigorously. The agreement said to have been arrived

## CITY COUNCIL CONVENES.

Routine Business Transacted, Bills Referred, Pay Roll Ordered Paid.

### MAYOR CREATES A SENSATION.

The council of city fathers was some what tardy in assembling last evening.

The hour had been advanced to 7:30, but it was not until 8 o'clock, when the mayor came the body to order.

There were present Mayor C. F. Myers; Aldermen G. W. Harrison, E. H. Harsch, Sigfried Grunsfeld, J. S. Beaven, J. A. Hubbs; J. E. Elder, city physician; H. H. Single, city attorney; H. F. Lee, city clerk; Thos. McMillin, city marshal; M. Nash, fire chief. Those absent were Aldermen H. E. Rogers, A. B. McMillen, Frank McKee and Treasurer L. H. Chamberlin.

The business transacted was largely of a routine character, beginning with the reading and adoption of minutes of previous meeting, and following the order of business previously adopted. The salient points will alone be noticed.

The fire committee presented a bill of \$125 for apparatus, which Chairman Hubbs of the fire committee explained had been incurred on condition that the council should approve the purchase. It was ordered that another test be made of the appliances, before the question of purchase be finally determined.

On motion of Alderman Grunsfeld the monthly appropriation from the city to the Non-Sectarian Benevolent association was increased from \$25 to \$40, though the ladies had asked that the appropriation be made \$50.

Alderman Harsch introduced a resolution, which was passed, that the fire committee be authorized to paint and paper the living rooms in the fire department building and purchase a carpet for the bed room. It was estimated that the painting and papering would cost about \$15, and it was suggested that the carpet need not be "of the very best."

Alderman Hubbs announced the city to be short one dog catcher, and he was appointed by the mayor a committee of one to fill the vacancy.

An ordinance was passed ordering the construction of sidewalks on North Sixth street between railroad and Fruit avenues, and on Third street between Gold and Lead avenues.

R. W. D. Bryan again appeared before the council in behalf of the farmers north of town, whose lands had been flooded by backwater from the dyke erected to protect the city during the spring flood. Messrs. Harsch, Hubbs and Beaven were appointed a committee to investigate Mr. Bryan's previous proposition that a committee of one each from the council, the sufferers, and the city, investigate the losses incurred.

The treasurer's report showed a balance in the treasury of October 1 of \$11,068.29. The marshal's report showed a total of \$585 turned over to the treasurer from his department for the month. The city clerk reported licenses collected for October to the amount of \$581.75. He also reported that the absent pound master, J. H. Bennett, has some \$10 coming from the city treasury as his commission on dog tax collected.

The city physician reported eleven cases treated during the last month, one only being contagious. This was a child with scarlet fever and the house was quarantined.

The usual quarterly bills were introduced and referred, and a motion to adjourn was offered, when Marshal McMillin called attention to the fact that the payroll for the last quarter had been overlooked. The motion to adjourn was withdrawn, and the payroll of \$2,927.50 was approved and ordered paid.

The session of the evening was when, towards the close, Mayor Myers announced that he had reorganized the standing committees of the council and would announce the following appointments:

Finance—Harrison, Hubbs and McKee.

Streets—Harsch, Harrison and Rogers.

Police—Rogers, Hubbs and Beaven.

Fire—Hubbs, Rogers and McKee.

Water—McKee, Harrison, Harsch, Grunsfeld, McMillen, Beaven and Grunsfeld.

Sewer—Hubbs, Harsch and Rogers.

Building, light and fuel—Harrison, Hubbs and Harsch.

The chief of the changes was the removal of Mr. Grunsfeld from chairmanship of the finance committee and the making of him a member of the grievance committee. Dr. Harrison being placed at the head of finances. As soon as the reading of the reorganized committees had ceased, Mr. Grunsfeld arose and congratulated the mayor and the reorganization he had placed at the head of the city's money affairs an alderman more in accord with the mayor and his administration than he himself had been able to be. The mayor accepted Mr. Grunsfeld's congratulations, but a little later stated that he had removed Mr. Grunsfeld

so that his well known financial ability need not be frittered away on city affairs when they might be employed to so much greater advantage on his personal interests. These were not the words but the import of the mayor's brief remark to which Mr. Grunsfeld made no reply.

The transaction was the outcome of a long series of differences between the mayor and the chairman of the finance committee, entirely personal, says the mayor, and which had come to be irksome to almost the entire council.

The Lordsburg Liberal says: T. A. Lister, president of the North American Mining company, returned from the east last Saturday, and found the company's properties in good shape. He went down to El Paso Monday and bought a thirty-five horse power engine and hoist and a thousand feet of cable, together with various other things needed about a hoist and pump. He has a boiler at the mine large enough to run both the pump and hoist. He is taking some fine ore out of his drifts and expects soon to commence shipping. Mr. Lister has also purchased a buckboard, so that hereafter it will not be so much like hard work to drive in from the mine. Mrs. Lister is very anxious to visit Lordsburg, and may come out with her children and spend the winter.

Professor Fayette A. Jones of the United States geological survey, with headquarters at Albuquerque, came in over the Santa Fe Central yesterday from Teocote, near the Jock Island road, near which point he gathered some fine specimens of nematite iron ore, says the New Mexican. The specimens will be on exhibition at the territorial fair, and then sent to St. Louis to become part of New Mexico's exhibit at the Louisiana purchase exposition next year.

Commercial Club Meeting. The following are delegates appointed by me to represent the Commercial club at the irrigation convention to be held in this city, October 12: O. N. Marron, R. W. D. Bryan, T. S. Hubbs, Summers Burkhardt, E. E. Dame, L. H. W. Burke, W. S. Strickler, Dr. J. H. Wroth, and R. W. Hopkins.

B. S. BAKER, President.

W. A. Hawkins, general attorney for the El Paso & Northwestern railway, accompanied by President Eddy, of that system, left Alamogordo with his family for Chicago, where he will reside in the future.

DISTRICT COURT.

A Tobacco Thief Pleads Guilty—Adolpho Gallegos Acquitted.

OTHER COURT MATTERS.

Judge Baker announced this morning that on Saturday morning, October 10, 1903, at 9 o'clock he would call the Bernalillo county civil docket and set all cases for trial or other disposition. All attorneys interested are requested to be present.

Yesterday afternoon W. C. Watson, charged with larceny of tobacco from the warehouse of J. B. Putney, pleaded guilty and stated to the court on his plea for mercy, that his guilt was not in the taking of the goods, but in holding and trying to dispose of them after he discovered they had been stolen. He also stated that he had never before been in trouble of this kind, and that at different times he had held positions of trust and honor under the government. The court stated, that upon the facts presented and on account of his age, he would make his sentence light, and after dwelling on the pernicious effect of tobacco taken in such large quantities, sentenced defendant to three months' imprisonment in the county jail, the sentence to date from the time of his arrest, which would give defendant about thirty days more to serve.

This forenoon was taken up with the case, "Territory vs. Adolfo Gallegos," the defendant being charged with assault with intent to murder. The testimony showed that on the night of May 31, Richard Whitlock, while in the state of semi-intoxication, was struck on the lower part of the head with a knife inflicting a wound about an inch in length. Whitlock had been seen in company with the defendant, and one witness, seemingly intimidated, testified that he saw the defendant strike Whitlock and that he took a knife from the defendant's hand, but he being the only known eyewitness for the territory having made conflicting statements, and the territory's failure to establish without doubt the guilt of the defendant, the jury found the defendant not guilty, after deliberating thirty minutes.

The Machinist Helpers' union will meet Saturday evening, October 10, at Central labor union hall at 8 o'clock, where they will be sworn in by Organizer Harman H. Wynkoop. Their membership is about seventy.

Mrs. Charles Gruner, who has had charge of the Metropolitan hotel the past few years, yesterday secured a new lease, and will continue in the lodging business.

## Notes from Correspondents

### ALGODONES NOTES.

The Election of Mayordomo and Aequia Commissioners.

Special Correspondence.

Algodones, N. M., Oct. 5.—An election was held here today for mayordomo of the acquila, Jacobo Perez receiving all the votes cast. For the office of aldea commissioners, Policarpo Griego, Gregorio Lopez and Jose Dario Lobato received all the votes cast, which makes them the new officers for the year of 1904.

The feast of Augustura occurred September 29 and came off as was expected with great eclat. A big dance was made on the night of the feast and a big time was had and everybody enjoyed themselves.

Justiano Castello was a pleasant caller here today and was well pleased with his reception.

Fluim Montoya was here at the dance and enjoyed himself hugely. He says Algodones can entertain people as well as his home which is in Bernalillo.

The farmers are gathering their corn crop which as predicted was as good as had been expected for several years. The fruit crop has exceeded the expectation of everybody. The peaches proved to be as good a crop as any year and other fruits coming nearly up to the standard. Beans are also as good or better than former years. Melons and other garden truck did not come up to the standard. Alfalfa is better for the fourth crop than it has been for many years and some will get a light cutting for a fifth crop.

J. H. M.

There is general improvement in all departments of the shops. New appliances and rigging are being constantly put on engines and everything is done to better the condition all around.

### BOARD OF EDUCATION.

Interesting Meeting Last Night—New Principal Accepted.

THE SCHOOLS ENROLLMENT.

The city board of education met at Central school building last night in regular session with President Hopkins, Trustees Dieckmann, Isherwood, Alger, Pratt, Clerk Hickey and Superintendent Stroup present.

The board worked in unison and much business was transacted in a short space of time. The most important probably being that of increasing the superintendent's salary from \$1,500 to \$1,800 a year.

After roll call and the reading of the minutes of two previous regular meetings and one special meeting the board proceeded with the regular business, ordering the clerk to draw warrants for bills approved. New bills were read. The bill of Clerk Hickey for taking the school census of the city of Albuquerque was allowed and ordered paid. The report shows the number of children in the city of school age to be 2,334, an increase of 255 over last year. By law the census taker is allowed five cents per each child found and recorded. The application of C. R. Kiger as principal of the Fourth ward school, succeeding Professor Sellars, recently resigned, was accepted and Mr. Kiger was employed at a salary of \$75 a month.

The committee on sidewalks asked for more time in which to report on the building of a sidewalk at the first ward school.

The superintendent reported 1,228 pupils enrolled in the schools, an increase of 150 over last year at this time. The treasurer's report shows a balance of \$5,500 in the treasury. The clerk explained that he had checked up the liquor licenses for the quarter ending October 1, and found the number to be forty-one retail places, and that the monies had been properly turned into the school fund.

Bids for furnishing coal from John S. Beaven and W. H. Hahn were read. The board deliberated at length on the proposition of ordering a coal supply for the winter. Trustee Isherwood made a motion that ninety tons of coal be ordered from W. H. Hahn. The motion was passed without a dissenting vote.

It was decided to dismiss school on Thursday and Friday of fair week, but as the circus on the coming Friday would not give a performance in the afternoon, the schools would not be dismissed on that day.

It was reported before the board that the damage done the school buildings recently by over enthusiastic football boys had been repaired and that the University boys, High school boys and outsiders, who participated in the trespassing, had agreed to settle it.

Water coolers were ordered for the several school buildings.

The American Lumber company has 1,600 logs loaded into cars and awaiting shipment from Thoresau. These logs were cut in opening the line of the Zuni Mountain railroad, and only

await the completion of the mill here to be shipped in. More than 1,500 men are at work in the lumbering camps, and the number will be increased as soon as the mills here blow in.

### FAYWOOD HOT SPRINGS.

After a Long Rest Our Correspondent Sends a Few Items.

Special Correspondence.

Faywood, N. M., Oct. 2.—Saturday evening two buggies arrived at the Faywood hotel, conveying J. L. Rice, United States inspector of construction at Fort Bayard; W. S. McCutcheon, P. J. Callan and Ray Polard, of El Paso. Mr. Callan has a \$45,000 contract at Fort Bayard and Mr. Polard is his foreman, and they came here to examine and test some fine stone in a quarry near here. They intended to return to Bayard, but a continuous down pour of rain prevented and they improved the opportunity by enjoying numerous hot baths.

M. C. Moseley, of Alexandria, La., accompanied by his son, is here convalescing from a serious attack of fever and recuperating his health and strength. Mr. Moseley is attorney for the Texas Pacific railroad, owns several plantations, rented to tenants, is largely interested in a large cotton seed oil mill and is very enthusiastic over the productive capacity of his state and the recent phenomenal progress made in manufacture.

Ralph C. Ely, general superintendent of the Faywood Concentrates company; John M. Stinson, engineer, and M. W. Smith drove over from their camp recently and the first two went on a short business trip down the road, Mr. Ely having returned today.

Mrs. J. Simon of Indiana, now a guest of her sister, Mrs. O. C. Hinman, at Silver City, has been passing a few days at the springs and returned today.

The recent rains were very beneficial and insure abundant winter pasture for stock.

### INDIAN SCHOOL NOTES.

The Marriage of J. R. Abner and Miss Annie Kowuni.

The Indian school was the scene of a very pretty wedding last evening in which Mr. Joseph Abner and Miss Annie Kowuni were the high contracting parties.

They were attended by Mr. Haygood and Miss Alice Morton as groomsmen and bridesmaids. The bride was attired in white organdie and carried a beautiful bouquet of white roses while her maid, who also wore white, carried pink roses.

The ever beautiful ring ceremony was performed by Rev. Mordy of Laguna, N. M., and was witnessed by the entire school as well as a number of invited guests.

The chapel was beautifully decorated in white and green, interspersed with autumn leaves and beautiful flowers.

The wedding party entered the hall to the sweet strains of the wedding march played by the First regiment band which also rendered several other pieces during the evening.

After the ceremony and congratulations, the party and guests repaired to the dining room where the beautifully decorated tables were laden with delicious viands that would tempt the appetite of the most fastidious epicures.

The caterers of the occasion were Brooks and wife, who demonstrated their ability to care for a large crowd in elegant style.

The dining room was also handsomely decorated and on the arch over the doorway rested the dove of peace.

Mr. and Mrs. Abner are very popular young people and were the recipients of a host of good wishes as well as a goodly number of beautiful presents.

The happy couple left last evening for Laguna, the home of the bride, where they will spend their honeymoon.

### Court Term Possibilities.

There is a possibility that the special term of the Grant county district court will convene in this city on October 19. Judge Parker is making an effort to dispose of the Dona Ana and United States business during the two weeks, commencing yesterday, and if he succeeds he will come to Silver City at the time mentioned. The Otero county term, which commences on November 2, has been postponed for a couple of weeks in order to allow of some repairs to the court house, and it Judge Parker can put through in Dona Ana county, he will have sufficient time at his command to give Grant county a three weeks' term at least. There are nineteen grand jury prisoners now confined in the county jail—Silver City independent.

S. F. Borden of the Borden Transfer company, was yesterday afternoon assisting in unloading a heavy box. He stepped upon the edge of a board walk and the weight threw his right leg to one side, badly spraining the ankle. He was around on crutches today.
